MEMORANDUM FOR: Project Security Officer

SUBJECT : Possible Courier Requirement, Watertown - Rochester

1. [] has informed me this morning that [] is cancelling his proposed TDY trip to England in order to be at Watertown for a period up to 30 days, commencing on or about 10 May, for the purpose of resolving certain optical problems in connection with the Perkins-Kimur and Hycon products.
2. One of the articles will be utilized as a test bed for continuous operations on camera gear in an effort to resolve some of the technical difficulties that have been besetting the equipment. It may develop therefore that there will be an almost daily courier requirement from Watertown to Rochester, New York and return for exposed film during this 30-day period.
3. While I realize that a requirement of this sort will hit you hardest at a time when you can least afford it, I cannot at this moment say that it is positively determined (1) whether this requirement will be in effect at all and (2) if in effect, whether it will be on a daily basis or not.
4. I suggest, therefore, that you keep in close touch with [] on this problem and keep me posted as to developments.
